

MSP Challenge Simulation Platform: Second Prototype Test Session

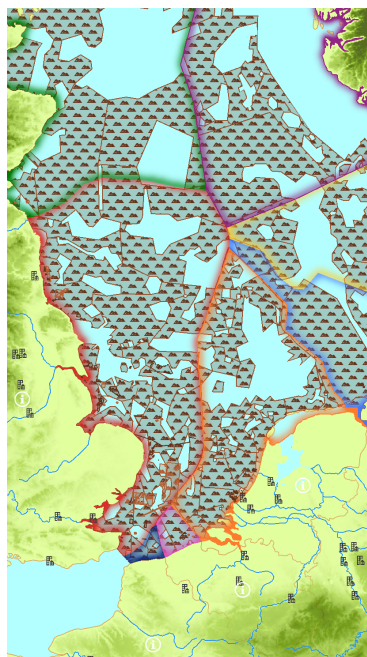

OR ELSE Midterm Symposium

Join us for an interactive serious game session to test the second, more advanced prototype of the MSP Challenge: Sand Extraction Edition.

Date: 14 May 2025 (11.00 - 13.00)

Location: NH Hotel, Burgemeester van Alphenstraat 36 (*Zandvoort aan Zee*)

Registration for session: On the day itself at the welcome desk (*capacity ~20 people*)

This session aims to bring together key stakeholders involved in sand extraction decision-making to collaboratively test and provide feedback on the latest prototype of the MSP Challenge: Sand Extraction Edition. Your insights will be instrumental in shaping the serious game into a functional and user-friendly tool that supports informed decision-making and stakeholder collaboration.

Why participate?

- > Engage with other stakeholders to communicate, collaborate, and deliberate on sand extraction challenges.
- > Gain new perspectives on the potential impacts of sand extraction decisions.
- > Share your expertise and help us better understand your needs and expectations for the serious game.

BUAs - the organizers - will provide:

- > High-performance MSI laptops (with mouse), preloaded with the digital platform.
- > Full technical and data support throughout the session.

Agenda:

- 11.00 - 11.30 Introduction MSP Challenge, scenarios, teams and roles
- 11.30 - 12.30 Gameplay session
- 12.30 - 13.00 Interactive debrief session with the participants

Contact persons session:
